Experiment: 3 Demonstrate network forensics using
Date: 01/10/25 pcap xray tool.

AIM:

To analyze network traffic using the pcap x-Ray tool.

PROCEDURE:

1. Open the pcap x-Ray tool in a browser
2. Obtain a sample pcap file
3. Upload the pcap file
4. View the analysis dashboard
5. Examine network problems and IP addresses.
6. Analyze communication patterns and suspicious activities.
7. Generate & Save the report.

RESULT:

Thus, network traffic was analyzed successfully using pcap x-ray.
